

Press Conference Notice from School District of Oconee County

Dear Media Partners,

The School District of Oconee County would like to invite you to attend a press conference on Friday, March 19, 2010 at 10:00 am to be held in the SDOC Boardroom at 414 South Pine St., Walhalla, SC.

You have been there when we have experienced the loss of students in our schools due to traffic fatalities. We would welcome to join us now as we celebrate with our community, our high schools, our school board, local law enforcement and Anderson Oconee Behavioral Health Services to begin implementation of Alive At 25.

The Alive At 25 program is sponsored by the National Safety Council. The South Carolina Chapter and Steve Diebel, traffic safety coordinator for SCNSC, have been instrumental in bringing this proactive program to Oconee County.

The program has been proven effective in reducing traffic fatalities within the 15-24 age group.

You will have opportunities to speak with representatives from our school district, law enforcement, high school principals, board members and representatives from Anderson Oconee Behavioral Health Services.

Please join us for the good news in Oconee County!

Kay L. Powell
Office of School and Community Services
School District of Oconee County
